PROGRAM

17:00

Welcome

17:05-17:20

Robotic training - What's new with emerging robotic technologies

-A. Mottrie

17:20-17:35

Role of Fluorescence Confocal Microscopy during Radical prostatetomy

-B. Rocco

17:35-17:50

Prostate Cancer screening, diagnosis and risk stratification

-M. Cooperberg

17:50-18:05

Current status and ablative therapies

-S. Eggener

18:05-18:20

Lessons learned after 13.000 RALPs

-V. Patel

18:20-18:35

Challenges diagnosing & treating pts. with Prostate Cancer in the COVID era

-A. Rodriguez

18:35-19:00

Q & A from audience
